# SIGNS, TERRITORIES & CREEDS

In Protection of the Individual

## **Aries . Mars . Active . Lead . Pioneer**

Aries wants to lead humanity towards doing things in a more efficient and sustainable manner. Aries knows this requires trying new things and trying again, as many times as it takes, to get it right. Aries is not afraid of being alone, being ridiculed, or being first.

## **Taurus . Venus . Material . Balance . Beauty**

Taurus wants to build a beautiful world. Taurus wants to make heaven on Earth a real thing, beauty is paramount. No more ugly parking lots and strip malls! Taurus says form “follows function”, not “sacrifices to it”. Beauty is balance and balance is beautiful.

## **Gemini . Mercury . Intelligent . Think . Learn**

Gemini wants us to use our brains. Gemini wants humanity to think and learn. We will need to know how to communicate, navigate, and work the problems, as they come up. Mobility and clear communication gives us time and money. It removes barriers to success, which results in equality, that little thing that our nation is supposed to be built on. Gemini is the great equalizer.

## **Cancer . Moon . Passive . Protect . Nurture**

Cancer wants to protect and nurture us, and our dreams. She wants us to have a safe, private, and secure place to retreat from the world, recharge our batteries, and dream. She teaches us the importance of rest, self-care, and self-preservation. Remember when the flight attendant tells you to put your oxygen mask on first? If you don't take care of yourself, you can't help anyone else.

## **Leo . Sun . Active . Create . Play**

Leo wants us to emulate divinity and shine. We emulate divinity through the act of creation. Play helps us to remember our life's purpose. Leo wants our creations to be divine, leaving the world better than we found it, lending a hand in creating heaven on Earth. Notice a theme here?

## **Virgo . Mercury . Material . Work . Maintenance**

Virgo wants us to use our brains to keep all our stuff organized, tidy, and in good working order. Virgo wants Earth to be clean, healthy, and run like a well oiled machine. She wants humanity to function like a hive of bees, not an infestation of cockroaches. You know, like heaven.

## **Libra . Venus . Intelligent . Harmony . Relating**

Libra wants to relate. She wants humanity to learn how to relate to each other with calm, detached, civility. She wants us to be kind rather than nice. She wants us to value balance and harmony in all of our human interactions. Not nice, but kind—sounds like a New Yorker to me.

## **Scorpio . Mars . Passive . Regenerate . Sustain**

Scorpio wants to regenerate. Scorpio wants this Earth experiment to flourish, thrive, and last for infinity. Recycle, reuse, regenerate, and leave nothing to waste says Scorpio. In the material realm, Scorpio protects the Earth's resources by controlling the Earth's resources. In the spiritual realm, this means facing our self-serving, self-sabotaging demons, and transmuting our fears into true power which lies in, you guessed it, the collective.

## **Sagittarius . Jupiter . Active . Grow . Beliefs**

Sagittarius wants you to grow emotionally, behaviorally, and cognitively. Sag says travel to new lands and learn their philosophies. If we can't travel, then seek, research, and study. He begs us to adopt a belief system, and then begs us to question the hell out of it, never satisfying for less than, not enough, or compromise, molding our beliefs into a state of perfection, free from any ability to harm.

## **Capricorn . Saturn . Material . Enterprise . Infrastructure**

Capricorn wants public security, enterprise, and equal access to it. He wants legislation and infrastructure allowing us to safely engage in enterprise, bringing goods and services to market efficiently, orderly, and without barriers based on class, race, color, or creed.

## **Aquarius . Saturn . Intelligent . Genius . Freedom**

Aquarius wants genius. Aquarius wants us to tap into cosmic consciousness and take our creations to the next level. Aquarius looks at humanity's current challenges and applies genius to overcome those challenges. We all have Aquarius somewhere in our charts. Now more than ever, we need to start owning it.

## **Pisces . Jupiter . Passive . Remember . Merge**

Pisces wants us to remember—to remember our source. Which came first the chicken or the egg? The EGG! It's the egg, people! We get so hung up on the material world, we forget—we wouldn't even be here if it weren't for some invisible, ineffable force. Pisces wants us to empty our minds and surrender to that force. It is only then that we can remember who we are, why we are here, and HOW to make it all work. The LOA folks say we don't need to know the how and then they proceed to tell us "how" they did "it" usually using the word "inspired", "premonition", or "intuited". Inspiration, premonitions, and intuitions are all just forms of remembering and there are many paths to remembering.
